

FreeRedact Redaction Safety Test

A repeatable, privacy-safe test document

Unsafe overlay example

The values below are covered by black rectangles, but they still exist as text.

Search, selection, copy, or extraction can reveal them. Do not share files made this way.

This example only looks redacted

- The black rectangles are separate drawing objects.
- The original values remain searchable and extractable underneath.
- Use this file to confirm that visual inspection alone is insufficient.
